- **Progress:** Around 152 community sensitization meetings done across the districts

Fund Mobilization

- **Decision:** Establishment of FP counselling corners
- **Progress:** The budget for development of facility collected from user fees is mobilised for establishing FP counselling corners. Rs 1.5 lakhs and Rs 0.4 lakhs for two different facilities is mobilized.

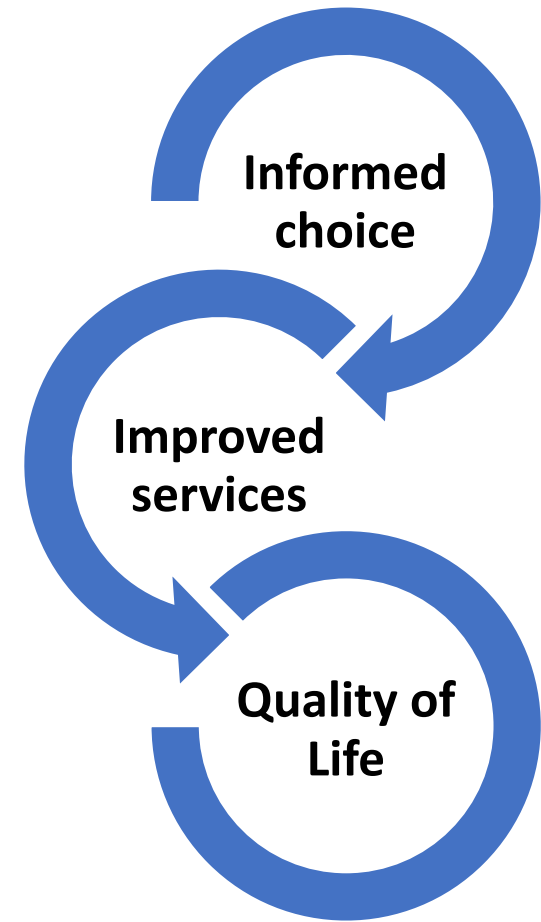

Previous situation for FP programs

Current situation for FP programs

Vision for the district

- Roll out of Antara injectable contraceptive at all health facilities and improve the quality of follow up and continuation rates
- NSV campaigns more systematically planned for extensive awareness in the community to improve the turn around of clients
- Improve the number and quality of Fixed Day Service facilities in the districts
- Quality IUCD services to be made available at all sub centres
- Quality FP counselling as a routine activity during village health and nutrition days as well as at FP counselling corners at all high case load facilities in the district
- Strengthening post abortion family planning services in the district.

、
“ The collective forces of
Government agencies and
Development Partners can be
channelized by strengthening
collaborations and working in
synergy for ensuring reproductive
rights of women”

Dr.SampatRaj Nagar ,
Chief Medical & Health officer , Baran District ,
Department of Health and Family Welfare, Govt of Rajasthan, India

“Strengthening platforms like DPIB where support from development partners is very significant to innovate, improve and implement in a better way for strengthening FP programs and expanding the access to contraceptive choices”

Mr. Dilip Sharma ,
District Program Manager , Baran District,
National Health Mission , Govt of Rajasthan, India

Baran district got appreciation by state government on WPD for 3rd position in FP program performance

Thank
You
